SPRINGFIELD QLD 4300

Dear Mike

FIABCI Prix d'Excellence Award

Last night Greater Springfield was awarded the FIABCI Prix d'Excellence Award for best Masterplanned community. The awards were presented by the Housing Minister representing the Honourable President of the Republic of Indonesia, Dr H. Susilo Bambang Yudhoyono.

FIABCI is the French acronym for "Federation Internationale des Administrateurs de Bien-Consolis Immobiliers", which means "The International Real Estate Federation" and the FIABCI Prix d'Excellence Awards is the annual accolade of awards bestowed to the works of the world's best properties. A total of 54 works of properties from various countries competed for the International Awards and we feel honoured to have been chosen as a recipient.

Over the years so many people have worked with our team to ensure we delivered a world class community and now this has been achieved. There is no doubt that you have played a key role to ensure Greater Springfield became the world's best and we gratefully acknowledge the role you have played.

Without the input of many, Greater Springfield would not be the home to 20,000 people, it would not be fulfilling the hopes and dreams of many and it certainly would not be the recipient of an International Award.

We are truly grateful for the tireless work, support and belief that you have had in the project and take this time to remember those who have helped us in the long journey.

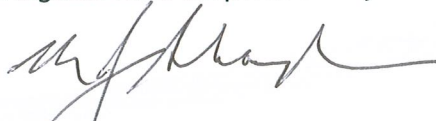

Yours sincerely
Springfield Land Corporation Pty Ltd
