

Business Continuity Planning Service

Protect your organisation from unforeseen disasters

This service allows for the development of a Business Continuity Plan (BCP) for your organisation, including a Disaster Recovery Plan and a Crisis Management Plan – and then to ensure that they integrate with the Enterprise Risk Management Framework.

This Service also includes setting up a Maintenance Schedule that will allow for regular review, relevancy and updating of the BCP.

Strategic Directions will review, update, test and maintain the Business Continuity Plans (BCP), IT Disaster Recovery Plan (ITDRP), and Crisis Management Plan for your Organisation.

Activities that we will undertake in conjunction with the appropriate Stakeholders include:

Develop and implement an integrated, enterprise wide business continuity / crisis management plan

Develop disaster recovery strategies appropriate to your business procedures.

Develop a BCP Manual including an Impact Analysis, Threat Analysis, Impact Scenarios and BCP Plan.

Identify critical communications channels and develop logistical plans for use during an emergency.

Prepare a maintenance schedule for the business continuity / crisis management plan.

Integrate disaster recovery / business continuity / crisis management / procedures with your organisation's overall Enterprise Risk Management Framework (ERM)

Provide recommendations to Senior Management on the business continuity / crisis management framework going forward.

Strategic Directions maintains a Practice devoted to ICT Strategy and has extensive experience in this area, having worked in Federal, State and Local Government Agencies, as well as commercial organisations.

Strategic Directions will follow best practice by conforming with ACSI 1 and AS HB 221:2004 Business Continuity Management Guidelines.
