

Data Centre Optimisation Service (DCOS)

Optimise the efficiency and effectiveness of your Data Centre

Vendor Independent Data Centre Design specialist Strategic Directions has announced the formation of a Data Centre Optimisation Service (DCOS) designed to help Government and Commercial Clients both here and overseas optimise their data centre needs, by providing objective advice and guidance in a number of areas.

These include:

- Data Centre Audits, Reviews, Risk Analyses, Site Audits, Location Assessments, Operational Reviews, Energy Usage Monitoring, Performance Analysis including Thermal Imaging, BMS functionality reviews / trend analysis, PUE efficiency
- Data Centre Relocation and Upgrade Planning and Design
- Data Centre Operation and Governance, Facility Management audits.
- BCP / DR review and integration

The Optimisation Service is supported by the Company's Data Centre Design and Planning Practice which offers such services as:

Data Centre Strategy

Business Case, Data Centre Design, Design Review and Planning

Facilities Manager Selection, Facilities Management and IT roles, responsibilities and demarcation,

Infrastructure Product Selection

Financial Modelling

Independent Quality Assessments, Design Authority, Project Management, Test & Commission Planning

Procurement: out source, co-source, in source

Total Cost of Ownership / Operational analysis

Market Assessments and Reviews

After recent International recognition of the world class Polaris Data Centre in Queensland, of which the Company was the facility Design Authority, and with many successful data centre design and planning engagements under its belt – Strategic Directions is well placed to provide these services to the many organisations who are wrestling with Data Centre challenges, and are in desperate need of good old fashioned independent advice, free from vendor pressures.
